

BAHMADI Akram

Specialized Technician in Automated Industrial Systems & Web and Mobile Developer

CONTACT:

Tanja Balia – Tangier
07 63 59 98 54
akrambm05@gmail.com
LinkedIn: Akram Bahmadi

SKILLS:

MANAGERIAL:

Project Management : Agile methodology (Scrum), FAST, Gantt charts, Poka-Yoke, Class Diagrams

Work Management: Lean Manufacturing, Kaizen, 5Whys, Ishikawa (Fishbone Diagram), 5S, Pareto Chart, 5W2H, MTBF / MTTR

PROGRAMMING LANGUAGES:

Desktop: C/C++ (Arduino, Dev-C++), mikroC

Web: Java, JavaScript, PHP, HTML, CSS

Mobile: Java

Instrumentation & Sensors

Electrical, Electronics, and Electrotechnical

Plastics Processing (Plasturgy)

Instrumentation & Capteur

SOFTWARE & TOOLS:

Project Management: JIRA, MindView

Automation: TIA Portal, MATLAB/Simulink, Simumatik, PLCnext

Design & CAD: Proteus, SolidWorks

IDEs: VS Code, IntelliJ IDEA, Android Studio

Pneumatics / Hydraulics: FluidSIM

Production & Machining: FlatCAM, Universal G-code Sender (UGS)

Office Tools: Microsoft Office Suite

CERTIFICATIONS:

December 2025

Professional Certificate in Agile and Scrum – Business Analysis | MTF Institute
Udemy

December 2025

PLCnext - Next Generation PLC:
Code and Compile

Aout 2025

Mechatronics and Industrial Internet of Things:
Code and Compile

Juin 2025

Foundations of Artificial Intelligence
LinkedIn

LANGUAGES:

English : Intermediate level

French : Intermediate level

Spanish : A1.2

Turkish : Basic proficiency

Arabe : Native language

INTERESTS:

Volunteering: Member of an association (Association des Jeunes Bakhat)

Other: Horseback riding, Music production and editing, Volleyball, Football

PROFILE:

Specialized Technician in Automated Systems & Full-Stack Developer

Experienced in industrial maintenance and automation (EMDEP, Valeo), I integrate electronics with web, mobile, and embedded development to design fully connected end-to-end industrial solutions.

PROJECTS:

Dec 2025 – Jan 2026: Team Leader – Final Training Project | ENSI (JobInTech)

Project: Development of a unified web platform for scholarship research in Morocco and internationally

- Led the team while actively contributing to planning, supervision, and task execution.
- Coordinated with academic stakeholders and faculty members.
- Conducted performance analysis and prepared structured process documentation and reports.

Jan 2025 – May 2025: Team Leader – Final Year Project | IFMIA TFZ

Project 1: Design of a didactic model for digital electronics

Project 2: Development of a PCB engraving machine

- Led and coordinated the team by planning, supervising, and participating in operational tasks; organized meetings; ensured cross-functional coordination with instructors; and managed documentation and data analysis.
- Designed educational prototypes with PCB interface using Proteus.
- Designed and programmed a CNC PCB engraving machine using Arduino, FlatCam, and UGS.

PROFESSIONAL EXPERIENCE :

July 04, 2025 – August 06, 2025

Internship: Electrical Test Maintenance Technician | EMDEP – Tangier, Morocco

- Optimized and commissioned electrical test benches, including wiring implementation and electronic board declaration, with counter-part adjustments according to layout specifications and customer requirements.

September 16, 2024 – December 27, 2024

Final Year Internship: Automotive Diagnostic Technical AssistantDépartement

PCPR Department | Expleo – Tangier, Morocco

Project: Modeling of the Anti-lock Braking System (ABS) using MATLAB

- Performed advanced diagnostics and troubleshooting of electrical and electronic faults on engine control units (ECUs), and trained newly recruited technicians.

January 17, 2023 – April 08, 2023

Introductory Internship: Test Maintenance Technician

Vistronique Department | Valeo Lighting Systems – Tangier, Morocco

- Conducted preventive and corrective maintenance operations and contributed to process improvement initiatives.
- Ensured quality control through daily audits and technical analysis of non-conforming (NOK) PCBs.

EDUCATION:

09/2025 – 01/2026: JobInTech Training Program in Web and Mobile Development

Ecole des Nouvelles Sciences et Ingénierie (ENSI) | Tangier

2023 – 2025: Specialized Technician Diploma in Automated Industrial Systems

Institut de Formation aux Métiers de l'Industrie Automobile (IFMIA TFZ) | Tangier

2022 – 2023: Baccalaureate in Physical and Chemical Sciences (French Option)

Ibn Zohr High School | Tanger
